STORMWATER SPECIFICATIONS MANUAL

Title	Page
I. CHAPTER 100 POLICY AND PROCEDURES	1-1
SECTION 101 INTRODUCTION	1-1
101.01 Purpose	1-1
101.02 General Provisions	1-1
101.03 Applicability	1-1
101.04 Stormwater Manual Organization	1-2
101.05 Updating	1-2
SECTION 102 PLAN SUBMITTAL AND PROCEDURES	1-3
102.01 Professional Certification	1-3
102.02 Plan Submittal and Approval Process	1-3
102.03 Platted Subdivisions, Commercial, and Industrial Developments	1-3
102.04 Technical Information Report	1-5
102.05 Erosion and Sediment Control Plans	1-6
102.06 Operations Manual	1-7
102.07 Single and Double-Family Dwellings	1-7
102.08 Incomplete Stormwater Permit Applications	1-8
102.09 Deviations from Approved Plans	1-8
102.10 Responsibilities	1-9
102.11 Performance Sureties	1-9
SECTION 103 CONSTRUCTION AND INSPECTION AND APPROVAL	1-10
103.01 Introduction	1-10
103.02 General Requirements	1-10
103.03 Construction Observation Services	1-10
103.04 Drainage Fees	1-11
103.05 Testing	1-13
103.06 Release of Sureties	1-15
103.07 Record Drawings	1-16
103.08 Enforcement of Standards	1-16
SECTION 104 OTHER REQUIREMENTS	1-17
104.01 Floodplain Management	1-17
104.02 Stormwater Quality	1-18
APPENDIX A1	A1-19
2. CHAPTER 200 HYDROLOGY	2-1
SECTION 201 BASIC POLICIES AND REQUIREMENTS	2-1

201.01 Definitions	2-1
201.02 Alternative Method	2-3
201.03 Hydrologic Method	2-4
201.04 Design Storm Frequencies	2-4
201.05 Off-Site Hydrologic Analysis	2-6
201.06 When Downstream Analysis and Detention/Retention not Required	2-6
201.07 Downstream Analysis Requirements	2-7
201.08 Actions if Peak Flow Shows Increase	2-8
201.09 Regional Facilities and Upstream Analysis	2-8
SECTION 202 RAINFALL.....	2-9
202.01 Rainfall Data	2-9
202.02 Rainfall Distribution.....	2-9
202.03 Design Storm Duration.....	2-9
SECTION 203 DETERMINING TIME-OF-CONCENTRATION (T_c)	2-10
203.01 Definition	2-10
203.02 Minimum Time of Concentration.....	2-10
203.03 Overland Flow Time.....	2-10
203.04 Shallow Concentrated Flow.....	2-11
203.05 Paved Gutter and Open Channel Flow	2-11
SECTION 204 PEAK FLOW COMPUTATIONS	2-12
204.01 Introduction.....	2-12
204.02 Rational Formula	2-12
204.03 Regression Equations.....	2-13
SECTION 205 HYDROGRAPH GENERATION METHODS	2-13
205.01 SCS Method Reference	2-13
205.02 SCS Method Formulas	2-13
205.03 SCS Curve Numbers.....	2-14
205.04 SCS Unit Hydrographs	2-14
APPENDIX A2.....	A2-1
3. CHAPTER 300 HYDRAULICS.....	3-1
SECTION 301 INTRODUCTION.....	3-1
301.01 Section Description	3-1
301.02 Definitions	3-1
SECTION 302 DETENTION/RETENTION DESIGN	3-3
302.01 Introduction.....	3-3
302.02 The Requirement for Detention/Retention	3-3
302.03 Minimum Performance Level of Detention/Retention Facilities	3-4
302.04 Increased Detention/Retention in Lieu of Downstream Analysis	3-5
302.05 Modified Rational Method.....	3-6
302.06 Bypassing Flow	3-8

302.07 Detention/Retention Facility Design	3-8
302.08 Design of D/R Facility Emergency Spillway's	3-9
302.09 Outlet Hydraulics Orifice Flow	3-9
302.10 Outlet Hydraulics - Weir Flow	3-10
302.11 Easements	3-10
SECTION 303 OPEN CHANNEL DESIGN	3-11
303.01 Introduction.....	3-11
303.02 Easements/Minimum Flood Protection Elevations	3-11
303.03 Grading and Depth of Open Channels	3-12
303.04 Channel Lining Design Requirements.....	3-13
303.05 Design of Open Channels Using Manning's Equation.....	3-15
SECTION 304 CULVERTS/BRIDGES.....	3-16
304.01 Introduction.....	3-16
304.02 Allowable Headwater.....	3-16
304.03 Open Culverts	3-16
304.04 Culverts Operating Under Inlet Control.....	3-17
304.05 Culverts Operating Under Outlet Control.....	3-17
305.06 Inlet/Outlet Losses.....	3-18
305.07 Outlet Protection/Energy Dissipation.....	3-18
SECTION 305 STORM DRAINS/INLETS	3-18
305.01 Introduction.....	3-18
305.02 Easements.....	3-19
305.03 Storm Drain Pipe Design.....	3-19
305.04 Backwater Method for Pipe System Analysis.....	3-19
305.05 Minimum Velocity	3-21
305.06 Non-Gravity Flow Systems	3-21
305.07 Inlet Grate Design	3-21
305.08 Gutterline Hydraulic Evaluation	3-22
APPENDIX A3.....	A3-1
4. CHAPTER 400 STORM SEWER PIPE AND OPEN CULVERT MATERIALS	4-1
SECTION 401 GENERAL	4-1
401.01 Material Markings	4-1
401.02 Certification of Materials.....	4-1
401.03 Material Testing and Inspection	4-1
401.04 Jacking and Boring Operations	4-1
401.05 Underground Detention Storage Vaults	4-2
SECTION 402 PIPE MATERIALS	4-2
402.01 Introduction.....	4-2
402.02 Class 1 Pipe Materials	4-4
402.03 Class 2 Pipe Materials	4-4
402.04 Class 3 Pipe Materials	4-4
402.05 Bituminous Coating's and Paving's	4-5

SECTION 403 MATERIAL SPECIFICATIONS	4-6
403.01 Introductions.....	4-6
403.02 Aluminum-Alloy Structural Plate Pipe, Pipe-Arches, Arches Long-Spans, and Box Culverts	4-7
403.03 Galvanized Structural Plate Pipe, Pipe-Arches, Arches, Long-Spans, and Box Culverts	4-7
403.04 Corrugated Metal Pipe and Pipe-Arches	4-8
403.05 High Density Polyethylene Pipe (HDPE)	4-9
403.06 Polyvinyl Chloride Pipe (PVC).....	4-10
403.07 Reinforced Concrete Pipe (RCP).....	4-11
403.08 Reinforced Concrete Box Sections	4-12
 SECTION 404 MANHOLE AND BOX INLET MATERIALS	 4-14
404.01 Introduction.....	4-14
404.02 Monolithic (Cast-in-Place) Storm Sewer Structures	4-15
404.03 Precast Storm Sewer Manhole Structures	4-15
404.04 Precast Concrete Box Inlets and Catchbasins	4-16
404.05 Concrete Bases.....	4-16
404.06 Bench Walls	4-16
404.07 Manhole Precast Adjusting Rings	4-17
404.08 Precast Concrete Box Inlets and Precast Spaces	4-17
404.09 Box Inlet and Manhole Dimensions	4-17
404.10 Pipe Connections	4-19
404.11 Subsurface Tile Connections and Stubs.....	4-19
404.12 Rejection of Damaged Box Inlet and Manholes.....	4-20
 SECTION 405 CASTINGS, FRAMES AND COVERS	 4-20
405.01 Introduction.....	4-20
405.02 Manholes	4-20
405.03 Slotted Drains	4-20
405.04 Rejection of Castings	4-21
 SECTION 406 SUBSURFACE TILES	 4-21
406.01 Introduction.....	4-21
406.02 General Requirements	4-21
406.03 Accepted Materials	4-22
406.04 Limited Cover Installations.....	4-23
 SECTION 407 PIPE END TREATMENTS	 4-23
407.01 Introduction.....	4-23
407.02 Embankment Protection	4-24
407.03 End Protection	4-24
407.04 Culvert End Anchors and Footing Supports	4-26
 APPENDIX A4.....	 A4-1

5. CHAPTER 500 INSTALLATION OF STORMWATER FACILITIES	5-1
SECTION 501 STORM SEWER PIPE AND OPEN CULVERT INSTALLATION	5-1
501.01 Introduction.....	5-1
501.02 Point of Commencement and Direction of Laying	5-1
501.03 Establishment of Line and Grade	5-1
501.04 Jetting or Flooding of Backfill.....	5-2
501.05 Multiple Pipe Installations and Skewed Culverts	5-2
501.06 Steep Slope Applications	5-2
501.07 Material Handling.....	5-2
501.08 Minimum Construction Cover	5-3
501.09 Trench Box Pulling and Sheeting	5-3
501.10 Trench Dewatering	5-3
501.11 Abandoned Sewers	5-4
501.12 Trench Installations.....	5-4
501.13 Minimum Trench Width.....	5-5
501.14 Bedding and Backfill Materials.....	5-6
501.15 Height of Cover Tables.....	5-9
501.16 Embankment Installations	5-9
SECTION 502 INSTALLATION OF PRECAST MANHOLES AND BOX INLETS	5-9
502.01 Introduction.....	5-9
502.02 Preparation of Base and Backfilling	5-10
502.03 Placement of Manhole Sections.....	5-10
502.04 Placement of Adjusting Rings and Spacers	5-10
502.05 Connections to Manholes.....	5-10
SECTION 503 INSTALLATION OF SUBSURFACE TILES.....	5-11
503.01 Introduction.....	5-11
503.02 Trench Construction	5-11
503.03 Gravel Envelopes and Backfilling	5-11
503.04 Minimum Cover Requirements.....	5-12
503.05 Minimum Levels of Workmanship	5-12
503.06 Outlet Protection.....	5-12
503.07 Rodent Protection.....	5-13
503.08 Location of Existing Tiles	5-13
SECTION 504 OPEN CHANNEL CONSTRUCTION	5-13
504.01 Introduction.....	5-13
504.02 Open Channel Stabilization	5-13
504.03 Controlling Surface and Subsurface Wetness in Open Channels.....	5-14
SECTION 505 DETENTION/RETENTION POND CONSTRUCTION	5-15
505.01 Introduction.....	5-15
505.02 Dry Detention Basins	5-15
505.03 Wet Detention/Retention Basins	5-16
505.04 Minimum Freeboard	5-16
505.05 Anti-Seep Devices	5-17
505.06 Emergency Spillways	5-17
505.07 Earthen Embankment Construction	5-17

APPENDIX A5.....	A5-1
6. CHAPTER 600 EROSION AND SEDIMENT CONTROL	6-1
SECTION 601 GENERAL	6-1
601.01 Purpose and Background	6-1
601.02 Authority	6-1
601.03 Definitions	6-1
SECTION 602 BASIC POLICIES AND PROCEDURES	6-3
602.01 General	6-3
602.02 Requirements	6-3
602.03 Erosion and Sediment Control Plans	6-4
602.04 Sureties	6-5
602.05 Perimeter Controls	6-6
602.06 Permanency of Grades	6-6
602.07 Buried Materials	6-6
602.08 Inspections	6-6
SECTION 603 TECHNICAL DESIGN CRITERIA	6-7
603.01 The Erosion Process	6-7
603.02 Design Principles	6-7
603.03 General Criteria for Erosion and Sediment Control Practices	6-8
603.04 Details on Specific Practices	6-9
603.05 Access Drives and Parking Areas	6-9
603.06 Straw Bale and Fabric Fence Barriers	6-10
603.07 Storm Drain Inlet Protection	6-10
603.08 Temporary Sediment Traps	6-10
603.09 Temporary Sediment Basins	6-11
603.10 Diversions	6-11
603.11 Temporary, Permanent and Dormant Seeding; Mulching and Erosion Control Blankets	6-12
603.12 Rock Riprap	6-13
603.13 Temporary Stream Crossings	6-14
Agreement "Keep Indianapolis Construction Sites Clean"	6-16
7. CHAPTER 700 STORMWATER QUALITY	
SECTION 701 INTRODUCTION	7-1
701.01 Section Description	7-1
701.02 Definitions	7-1
701.03 Purpose and Background	7-2
701.04 Stormwater Quality Control Requirements	7-2
SECTION 702 STRUCTURAL BEST MANAGEMENT PRACTICES	7-3
702.01 Innovative BMPs	7-3
702.02 Inspection and Maintenance	7-3
702.03 Stormwater Ponds	7-6
702.04 Stormwater Wetlands	7-16

702.05 Bioretention.....	7-28
702.06 Sand Filters	7-33
702.07 Water Quality Swales	7-41
702.08 Biofilters	7-46
702.09 Catch Basin Inserts	7-53

Appendix A7.....	A7-1
Appendix B7.....	B7-1
Appendix C7.....	C7-1

APPENDIX I Chapter 561 (Previously Section 10 ½)

APPENDIX II Flood Control Districts Zoning Ordinance

LIST OF TABLES

Table 201-1: Minimum Design Storm Frequencies	2-4
Table 202-1: IDF Equation Values for Indianapolis, IN.....	A2-1
Table 202-2: IDF and IDD Tables for Indianapolis, IN.....	A2-2
Table 202-3: Huff Curve Ordinates.....	A2-5
Table 203-1: Roughness coefficients (Manning's n) for sheet flow	A2-7
Table 204-1: Runoff Coefficients [®] for Use in the Rational Method.....	A2-10
Table 205-1: Soil and Water Features for Marion County, Indiana	A2-11
Table 205-2: Runoff Curve Numbers for Urban Areas	A2-12
Table 205-3: Runoff Curve Numbers for Cultivated Agricultural Lands	A2-13
Table 205-4: Runoff Curve Numbers for Other Agricultural Land	A2-14
Table 205-5: Unit Hydrograph Ordinates.....	A2-17
Table 301-1: Symbols and Definitions	3-2
Table 303-1: Summary of Shear Stress for Various Protection Measures	A3-3
Table 304-1: Inlet Coefficients.....	A3-10
Table 305-1: Manning's "n" Values for Pipes	A3-15
Table 404-1: Maximum Pipe Inside Diameters for Precast Box Inlets.....	4-18
Table 404-2: Minimum Manhole Diameter's	4-18
Table 406-1: Subsurface Drain Tile Materials	4-22
Table 407-2: Dimensions of Galvanized Steel End Sections for Round Pipe, 2 2/3" x 1/2", 7 1/2" x 3/4" x 3/4", 3" x 1" and 5" x 1" corrugations (Figure 400-08).....	4-25
Table 407-3: Dimensions of Galvanized Steel End Sections for Pipe-Arch, 2 2/3" x 1/2", and 7 1/2" x 3/4" corrugations (Figure 400-08).....	4-25
Table 501-1: Height of Cover for Corrugated Polyethylene Pipe	A5-1
Table 501-2: Height of Cover for Ribbed Polyethylene Pipe	A5-2
Table 501-3: Height of Cover for Smooth Wall Polyethylene Pipe	A5-3
Table 501-4: Height of Cover for Ribbed Polyvinyl Chloride Pipe	A5-4
Table 501-5: Height of Cover for Smooth Wall Polyvinyl Chloride Pipe	A5-4
Table 501-6: Height of Cover for Corrugated Steel Pipe.....	A5-5
Table 501-7: Height of Cover for Corrugated Steep Pipe Arches	A5-6
Table 501-8: Height of Cover for Corrugated Aluminum Pipe	A5-7
Table 501-9: Height of Cover for Corrugated Aluminum Pipe Arches	A5-8
Table 702.00-1: Pre-Approved BMPs	7-4
Table 702.00-2: BMP Selection Criteria	7-5
Table 702.04-1: Minimum Required Design Configuration For Stormwater Wetlands	7-18
